T 100.5   P 80   R 40/0   pk/1  
Weight: 57.4 lbs   (26.09 kgs) (0.88 m2)  
*Previous weight: 56.6 lbs*

Heart auscults with no obvious murmur or arrhythmia, pulses are regular, strong, synchronous  
Lungs sound clear on auscultation, no referred upper airway sounds.

Abdomen not painful, no masses or fluid found

Musculoskeletal: ambulatory x 4, no discomfort on gentle palpation of legs, no lameness.

Neurological: bright, alert and responsive, no cranial nerve deficits

Eyes/Ears/Nose/Throat: pink, moist mucous membranes, CRT<2, normal aging changes

Peripheral Lymph nodes: all were small and soft

Integument & Hydration: within normal limits

**Assessment and Plan:** Jack looks great today and I imagine that he is really at his prime right now! We discussed monitoring him and agreed to just let him live his best life as long as possible. We won't do any diagnostics, but will give him a melanoma booster every 6 months. I see no reason he can't go to nationals coming up. Obviously, try not to let him associate with any sick dogs, but I don't expect that many will be there. Your camping set up sounds perfect for him!

Hope Advanced Veterinary Center - Vienna  
140 Park Street SE  
Vienna, VA 22180  
(703) 281-5121

**Treatments given today:**

Melanoma Vaccine booster

**Please schedule your next appointment in 6 months for another melanoma vaccine. Of course if he does not seem right before then, please feel free to call.**

**It was a pleasure to see you and Jack again.** Please feel free to call if you have any questions or concerns at (703) 281-2277, your primary veterinarian, or The Hope Center Emergency Department at (703) 281-5121.

Dr. Elsa Beck, DVM, PhD, DACVIM, DACVR

*For all medications that need to be refilled please call our office at least 3-4 days prior to your pet's prescriptions running out. Dr Beck is in the office Monday through Thursday. Routine requests must be made on these days.*

*In accordance with Virginia State law, Hope Advanced Veterinary Center is prohibited from allowing the return/refund of any prescription medication once it has left our facility. Additionally, all "controlled substance" medications are nonrefundable once they have been prescribed; fees may still apply even if the medication is no longer requested or taken at time of discharge.*

**We are an AAHA Accredited Hospital - The Standard of Veterinary Excellence**

**For any questions on Jack's health, please call (703) 281-5121**
